

## Recognition of Study

As a matter of policy and in order to ensure the recognition and correct and equal treatment of all incoming and outgoing students involved in CSMM mobility programs, the School commits to implementing two procedures of agreement in writing:

### 1) Learning Agreement

The Learning Agreement is a binding document which sets out the commitment between the mobility participant, the home institute and the Cyprus School of Molecular Medicine, setting out in detail the course/s the student will be taking along with the value in terms of ECTS credits which the course carries. Both the CSMM as a host institute but also the home institute are bound to complete the Learning Agreement process, so that the participants can rest assured that their mobility period of study will receive full recognition in academic terms.

### 2) Grant Agreement

The Grant Agreement is a comprehensive agreement signed by the mobility participant and the sending institution. It provides analytical information regarding the duration of mobility, financial support, insurance and linguistic support.

### 3) Transcript of Records

The CSMM is committed to providing participants of mobility programs (upon completion of the program), with a full transcript of Records in English. The information contained therein will verify the courses taken by the student while at the Cyprus School of Molecular Medicine, along with their ECTS value and the final grades achieved by the student.
