

An annual interactive course run over 6 days in new locations around Europe, recognizing a local need to the area where the course is based. The course is a mixture of introductory lectures and interactive tutorials, with faculty asked to attend for a minimum of three days to interact with students. Every applicant submits 2 cases and a bursary is given only to applicants under <45 years according to the results of the evaluation of applications. Each MC is planned for 26 participants to ensure maximum level of participation.
