

**THE CYPRUS INSTITUTE OF NEUROLOGY AND GENETICS
ENERGY MANAGEMENT POLICY STATEMENT**

The Cyprus Institute of Neurology & Genetics (CING) is committed to the continuous improvement of its energy efficiency.

This commitment is materialized by the implementation of the Energy Management System (EMS), in accordance with the principles and requirements of ISO 50001: 2018, which ensures the following purposes:

- Continuous improvement in CING's energy performance.
- Conformance with the National and European Legislation and any other signed obligations undertaken regarding energy issues.
- Provision of required resources and information critical to success in energy performance objectives within the scope of the EMS.
- Design and Operation of CING buildings, taking into consideration, the energy saving and performance, climate change policies and resources savings in the whole life cycle of the services.
- Support of high energy efficient products and services.
- Training, motivation and awareness of the staff, scientists, and students on energy saving practices.
- Annual assessment of the energy performance and reset of our targets in terms for continuous improvement.
- Persuasion of suppliers and contractors to adopt similar Energy Management Policies.
